I am an Entry-level, front-end development, self-taught student seeking to breach my way into the world of IT. Recently separated from the U.S. Air Force, my dream is to get my foot in the door of the IT world, and maybe one day become a video game developer. I have recently completed the Google IT Support Professional Certificate — an eight-month IT support program that covers troubleshooting, customer service, networking, operating systems, system administration, and security, and includes hands-on labs. I have also completed several courses from another learning site 'CodeCademy'. My learnings have expanded from the basics of computer hardware, to programming with JavaScript, Python, HTML, and CSS (I even created an online portfolio hosted on GitHub Pages). While I may not have a bachelor's degree, my motivation to learn and succeed in this field is immeasurable. If given the opportunity, I know that I would excel. Thank you for your consideration!

EXPERIENCE

United States Air Force- Madison, WI— Integrated Avionics Technician (SrA)

March, 2018 - January, 2022

Summary: Performed both preventive and repair maintenance on a fleet of 30 F-16 fighter aircraft to maintain mission readiness. This included working both alone and with a team to complete tasks like replacing broken parts, or repairing broken wires.

Key Highlights:

- Ran electrical diagnostics on F-16 jets to troubleshoot and make appropriate repairs to systems like pneumatic pressure, flight controls, radar threat warning, communication, and navigation.
- Supervised and educated new recruits on basic and advanced aircraft maintenance protocols and procedures.
- Routinely performed safe, on-the-spot, maintenance in stressful, time-sensitive, situations in order to ensure mission readiness.

Sales Representative - Virginia Beach, VA - TruGreen

March, 2022 - August, 2022

Summary: Acquired new customers for TruGreen by following leads/performing on-site property inspections of customers lawns/landscapes. Doing this, I was able to determine the best course of action for the customers while also meeting a weekly sales quota.

Member Support Representative - Remote - Navy Federal Credit Union

August, 2022 - Present

Summary: Assisting Navy Federal customers with any inquiries/issues they may be having while also providing top-notch customer support, ensuring both customer satisfaction and longevity.

EDUCATION

Google IT Support Professional Certificate

Eight-month IT support program, developed by Google, that covers troubleshooting, customer service, networking, operating systems, system administration, and security, and includes hands-on labs

Codecademy, Online

Attending online lessons for Full-Stack web development. So far, I have completed several lessons each furthering my knowledge in HTML/CSS/JavaScript coding languages.

Sheppard AFB, Texas

Attended a technical training school for 6+ months, learning basic electrical functions/how to read schematics/basic theory/In-depth training specifically for maintaining the F-16; received 60 credits towards CCAF degree.

King's Fork High School - Suffolk, VA - High School Diploma

Cumulative GPA: 3.6

SKILLS
